

For commercial and industrial use

PROFI 

Backwash protective filter

The JUDO PROFi series backwash protective filters are screen filters for drinking water. The products with a patented cleaning technique protect pipe systems and water-conveying equipment and plant around the clock.

The advantages

- ◆ No cartridges replacement required
- ◆ Continuous water supply even during cleaning
- ◆ Prophylactic germ protection through silver-coated sieve
- ◆ Selectable mesh size:
 - Manual or automatic backwashing/cleaning of the filter
 - Degree of soiling is clearly visible
 - High flow rate
 - Patented – made in Germany

**Wasser-
Aufbereitung**

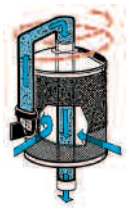

The problem

Sand, rust and dirt particles damage and block sanitary installations such as water pipes, fittings, boilers, showers, etc. This leads to corrosion, pipe bursts and expensive repairs. The solution: PROFI from JUDO.

Universal use

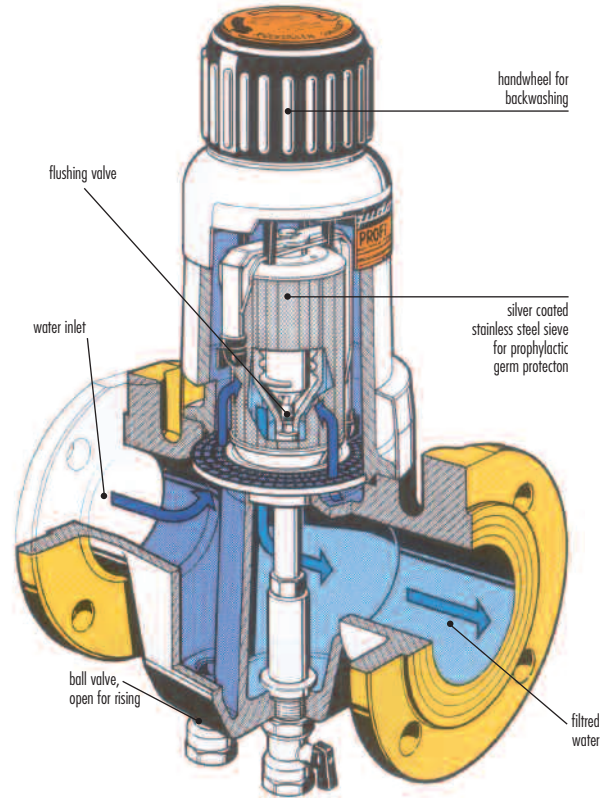

Private households, hotels, catering outlets, hospitals, office buildings, apartments, industry, etc.

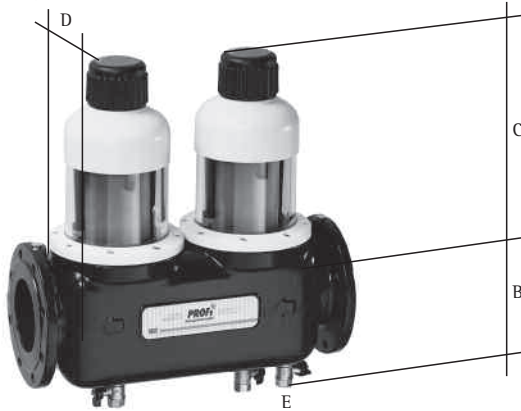

PROFI - the germ protection class

Available as manual, time or differential pressure control type. Perfect screen cleaning through patented point-rotation system.
